ABOUT

TG Construction is a division of the **TG Groups**. It is a Chennai based firm specialized in Design and Build service, Interior Turnkey service, Landscape Turnkey service, Construction Materials supply services. The department is headed by **Mr. S.Ramachandran**, CCO-TG Groups. He had balanced his work on a broad range of high-profile projects with a strong focus on Residential and Commercial buildings in Tamil Nadu, where his skills and network have been built up over two decades of working in the various regions.

The primary objective of the organization is to support customers from **initial planning to final implementation** of their projects. Remarkable **customer satisfaction** and **value for money** is what distinguishes the company in the field. The **quality** of service and **timely completion** of projects is believed to contribute to the growth and prosperity of the clientele and the team.

TG Constructions is a venture with a great zeal for creating and executing projects on turnkey premise. The team's specialist group encompasses Architects, Interior and Landscape Designers, Project Managers, Site Supervisors, Procurement Managers, Civil Engineers & Civil Foreman who have adequate knowledge and experience to convey any vision to reality. The team is more than willing to take up projects belonging to any part of the spectrum and work to produce results that match the client's vision.

The company's strength lies in its system. A well-planned project management and the highly experienced team form the system's core in the company. The experience in the field spans over 2 decades and exposure to a variety of challenges including crushing deadlines, thrust on space, precising building laws and specifications, changing technological developments and evolving customer requirements has changed the way we look at the building process. Our experience has always been notably valuable in obtaining sanctions, from statutory bodies. We also have an in-house team to verify legal documents and screen every detail of the property before commencement of work or offering it to our client.

TG Construction has excelled in bringing its client's interests first on every one of the projects and have never missed an opportunity in living up to its reputation, as the builder who delivers on commitments in any given time-frame.

The company has crafted a niche in the construction industry by its own contribution as well as by assisting the well-known Real Estate developers to develop, market and hand over the projects of all nature. The company is committed to providing its clients with quality construction, customer care and always fulfilling commitments made to its customers, vendors and investors.
